20 Years of Consistent Growth!

Leadership in Action, Melaleuca's monthly magazine, highlights Melaleuca's growth record.

The auditors have finished their work and the results are finally in! The final number for Melaleuca Worldwide Gross Sales for fiscal year 2004 is \$634,842,202! Melaleuca opened its doors for business on September 1, 1985, with Frank L. VanderSloot as President/CEO and seven

other employees. At that time Melaleuca had less than a dozen products. Today, Melaleuca has over 350 products, 2,200 employees, and does business in eight countries.

Frank sums it up perfectly when he says, "Our success is a direct result of our great people and our superior products. In the end, regardless of how great your products are, you can't get anywhere without great people to back them up. We feel indebted to those who have been with us longterm. Without them we would be nothing."
